ABOUT US

Since 2018

Promatec Solutions, founded by South African entrepreneurs, aims to provide innovative integrated electronic security solutions. Our headquarters in Pretoria, South Africa position us to expand our market through strategic alliances. With expertise in designing, installing, and commissioning surveillance systems, we're the excellent choice for customers seeking electronic security solutions.

AFFIRMATIVE ACTION POLICY

We believe in diversity as well as an equal opportunity for all. We look forward to grow as an ambitious team from differentiated backgrounds so as to play an important role in the economic development of Africa.

MISSION

To make a secure World through our services and our business – for our customers and our people by delivering desired security solutions beyond their expectations. This is what we are committed for and strive to achieve in our execution of services.

VISION

To be an innovative, trusted and preferred partner in electronic security solutions

WHAT WE OFFER

Design and Installation

We specialise in design, installation and commissioning integrated security systems from a wide range of manufacturers of Hardware and software.

Client-Centric Approach

Giving all due considerations to requirements, special features and capabilities, system applications, budget constraints, the company is always committed to delivering security services that guarantee the objectives of the client.

At Promatec Solutions, our mission guides our work. We transform customers' dreams into tangible results. Our action-oriented approach is driven by collaboration, openness, and fairness. As an organization, we prioritize honesty, professionalism, and flexibility in our business engagements, shaping our brand identity

OUR SERVICES

Access Control

From magnetic locks to electric motors, we provide high quality security systems including intrusion detection systems, biometric fingerprint scanners, card reader systems, and integrated CCTV monitoring.

Anti-theft EAS
